STUDENTS IN DISSENT :

Victoria - About 24 secondary schools have underground papers (17 State high schools). Not much notice taken by students, but very undesirable views against authority of school, home, church and State.

New South Wales -

- (a) Student Underground - against Vietnam and conscription; social order. Three per term.
- (b) Out of Apathy - refers to single schools. Some School Principals attacked.
- (c) Secondary Students Union. Aims to establish committees of students in schools and reform in general. Headquarters are recognized places, e.g. coffee shops.
- (d) Captains and Vice-Captains of some schools meet to oppose the other groups and to restore morale of State schools.

Movements among school pupils are here to stay. What to do with them is our worry.

Queensland - Society for Democratic Action - University movement but not in schools.

Students in Dissent - similar.

Pamphlets not distributed very much. Some stuck on walls or few pamphlets given out. Margaret Bailey case has been publicised.
